Manufacturing Method	SoapQueen can confirm Essential oils - Lemongrass is produced via Steam Distillation.
Product Status	Pure & Natural.
Origin	SoapQueen can confirm Essential oils - Lemongrass origin is India.
CAS Number	89998-14-1 / 8007-02-1
EINCS Number	289-752-0
Customs Tariff Code	3302909000
UN Number	3082
REACH Status	Reach registered.
The Oil Factor	SoapQueen presents Essential oils - Lemongrass. Our wild harvested West Indian Lemongrass is a hit with formulators, mainly due to its fresh aroma, its somethingdifferent to that of standard Lemon oil. The grass (or leaves) that is wild harvested is promptly dried before going through steam distillation, the by-product grass of the process is then utilised for cattle feed, so no waste. The results are a very fresh, lemon yet slightly earthy aroma. Popular in both food & cosmetics for its flavour & fragrance appeal. We suggest using this oil in any detox focused products or if you are trying to achieve a fresh, clean natural deodorant.
Functionality	A super detox oil. A fresh, lemon yet slightly earthy aroma! A popular food flavoring & cosmetic fragrance. Reduces greasy skin when the appropriate amount is used. Wild Harvested & no waste production. Blends well with other citrus essential oils. We think it is best served on its own. An oil that reflects freshness, cleanliness & vibrancy...
Food Status	SoapQueen can confirm that Essential oils - Lemongrass IS suitable for food application, only when the appropriate quantity/dilution is used. This material complies with European Food Regulations (i.e. 1881/2006).
