EINCS Number	284-535-7
Customs Tariff Code	3302 9090 00
UN Number	2924
The Oil Factor	Its time for some Thyme! SoapQueen presents Essentail oils - Thyme (White). We offer a variety of Thyme oils so have a scan of our range. Essentail oil - Thyme (White) is the crude distillate that we then further re-distill or rectify to get a clear, pale, yellow oil with a fresh, mild scent. Thyme Oil is commonly used in Aromatherapy/massage, hair products & skin care. It aids in preventing hair loss when added into shampoos but also considered a 'toning' oil when applied to skin care formulations. It is widely used in acne treatments to control and prevent acne breakouts. Finally, we like to apply it to insect repellants to prevent bites from insects & mosquitoes. This is the most popular commercial grade we offer, however if you would like a different grade, please do ask.
Functionality	A clear, pale, yellow and fresh/mild scented oil. Beneficial in hair & skin care formulations. Considered a 'toning' oil for the skin & hair loss prevention. Widely used in insect & mosquitos repellants.
