### Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 04.11.2020

Version 93

Revision: 04.11.2020

(Contd. of page 2)

### . SECTION 4: First aid measures

◦ 4.1 Description of first aid measures

• General information: Immediately remove any clothing soiled by the product.

After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

After skin contact: Immediately wash with water and soap and rinse thoroughly.

After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing: Drink plenty of water and provide fresh air. Call for a doctor immediately.

•4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.

•4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

### . SECTION 5: Firefighting measures

5.1 Extinguishing media
 4

Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water.

- For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2 Special hazards arising from the substance or mixture During heating or in case of fire poisonous gases are produced.
- 5.3 Advice for firefighters
- Protective equipment: No special measures required.

#### . SECTION 6: Accidental release measures

• 6.1 Personal precautions, protective equipment and emergency procedures Not required.

6.2 Environmental precautions:

Do not allow product to reach sewage system or any water course.

Inform respective authorities in case of seepage into water course or sewage system.

Do not allow to enter sewers/ surface or ground water.

◦ 6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Dispose contaminated material as waste according to item 13.

Treat with 2 % sodium hydroxide solution.

Ensure adequate ventilation.

6.4 Reference to other sections

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

#### . SECTION 7: Handling and storage

•7.1 Precautions for safe handling Prevent formation of aerosols.

Information about fire - and explosion protection: No special measures required.

#### ° 7.2 Conditions for safe storage, including any incompatibilities

Storage:

Requirements to be met by storerooms and receptacles: No special requirements.

- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: None.

Storage class: 10

°7.3 Specific end use(s) No further relevant information available.

according to 1907/2006/EC, Article 31 Version 93
