EINCS Number	- / 291-063-5 & 232-273-9
Customs Tariff Code	1515 9099 99
The Oil Factor	SoapQueen presents Almond oil (sweet). This product is the base of most cosmetic formulations. It is stable & has an extensive shelf life, versatile, easy to use & incredibly cost effective. We blend our Almond oil with sunflower oil. This oil is perfectly suited for those that want a cheap carrier oil to get their formulation up & running; whether it's a soap, shampoo, massage oil or face cream.
Functionality	A cheap, effective emollient. A popular lubricating oil, commonly used in massage for this very reason. A very good carrier to blend with other oils, mainly essential oils. Due to its refined state the profile of the oil does not impact the aroma of the essential oil. Commonly used in baby products due to its sensitive nature on irritated & sensitive skin.
REACH Status	SoapQueen can confirm that Almond oil (sweet) supplied is exempt as per Annex IV & V according to EU regulations 1907/2006. This product is not chemically modified, it comes under derogation pursuant to EU regulation 987/2008, Annex II, #9. Hence registration is not required for this product. We can also confirm that none of the substances on the SVHC candidate list can be verified in a concentration of >0.1% in our product.
Food Status	SoapQueen can confirm that Almond oil (sweet) IS suitable for food, only when the appropriate quantities/dilution is used. This material complies with European Food Regulations (i.e. 1881/2006). However before consuming or formulating a food item using this ingredient, we insist you email our Technical Team before doing so for our opinion on the dilution applied to your finished product.
Cosmetic Status	SoapQueen can confirm that Almond oil (sweet) is suitable for cosmetic application. It is not included in the list of substances prohibited in cosmetic products. Neither does it contain parabens, restricted preservatives, colorants or UV filters (Annex II – VI of EU Regulation 1223/2009).
